Applicant.

MOTION ON CONSENT TO AMEND APPLICATION

Pursuant to Rule 2.133 of the Trademark Rules of Practice, Applicant respectfully moves on consent of Opposer that the identification of goods in Application Serial No. 86/203,593 be amended as follows (with additions noted in bold and deletions noted in bolded strikethrough):

Class 9: Computer software that provides web-based access to applications ~~and services~~ through a web operating system or portal interface for management of data, documents and document images, namely, software applications for uploading, transmitting, displaying, storing, auditing, editing and purging information in the form of data, documents and document images, **none of the aforementioned data, document and image management software constituting legal or litigation support services**

The amended identification of goods narrows rather than broadens the scope of this application and, therefore, the application will not require republication.
